REVIEW OF DINOSAUR TRAINING SECRETS VOLUME II HOW STRONG ARE YOU ENGLISH EDITION

- Travels consists of a series of short stories, autobiographical in nature, relating various of Michael Crichton's experiences. Many of the stories have an element of spirituality, as the Author

seems to constantly be looking for greater meaning, or greater understanding of himself and life in general. From tarot, auras, and past lives, to spoon bending, and chakras, Crichton has experienced it. It was interesting to see how a Harvard educated MD approached these different fringe phenomena, and was able to relate them as well as his own sense of curiosity in each of the different stories. The book has sparked some curiosity in me, and has made me consider that there may very well be phenomena that we don't fully understand. While I still am not a believer in psychic powers, or fortune tellers, I will go so far as to say that there are many mysteries in life that I have not yet experienced. Overall I found the stories interesting, but short. Considering they are short stories, this is not a bad thing, but there were definitely times when I was craving more

information, more detail, more writing. This isn't really a complaint so much as me whining. It was a very interesting collection of stories, and I think some of you will enjoy reading about them. I generally enjoy anything that gives me more information about the author so that I can get a feel for where their writing is coming from.

- The book includes the very first x-men comics ever published. I was a HUGE x-men geek back in the 80's, about the time that Longshot joined the team. I had most of the issues from about 150 - 250, and I always wanted to go back to the start and read the story from the very beginning. If you did/do too, this is where to start. The other series, "the essential x-men" which also has a #1 starts with the mid-70's "reboot" that introduced Wolverine, Nightcrawler, Colossus and Storm. The whole thing is in black-and-white, though, which feels a little strange when you're reading it.
