#### REVIEW OF FUTURE CRIMES EVERYTHING IS CONNECTED EVERYONE VULNERABLE AND WHAT WE CAN DO ABOUT IT MARC GOODMAN

- Factually shaky at many points, pedestrian prose, self-aggrandizing and a page turner only for wanting to finish the awful thing. What I found most offensive about this book was the author's egotistical disdain for the, "lesser climbers", of the team. In fact she and her fellow leaders showed nothing but hostility to many members and they all come off as smug, arrogant jerks. Having been on climbing expeditions before, there is a great deal of stress, raw feelings, etc, but the raw and condescending behavior of the author and trip leaders is disgusting. Don't even get started on their ugly American "analysis" of Asians on Denali. Read this book if you one day want to write a mountaineering book and this one will point to every flaw in doing so.

- As one review put it-- this is timeless wisdom and dated info. The book is fascinating and it is like meeting a Great Guru in person. I had watched the market little deeply only for few months. But even with that experience, I can say "Oh ,how true,how true" for many many paragraphs in the book. I have underlined them everywhere. If you care about your money and investment and want to take charge of it, There is no other compassionate Guru you can find other than Mr Loeb. I think his theory works very well in bull markets too. But you have to work very hard, as he rightly cautions. It is worth all the effort. Thank you Mr Loeb for demystifying the Stock market, its perils and opportunities. If one has time, One should forget all the fancy investment theories floating around in popular journals and fashion, and practice Mr Loeb. I think it will work very well for small investors
