REVIEW OF ENGINEERING ECONOMIC ANALYSIS 11TH EDITION SOLUTIONS

- continuing the lifetime Hugo award winning series written by Isaac Asimov...lest my snarkiness towards this venerable and respected author and his writing give anyone the wrong impression.. I am very much enjoying this reread! But the world (and I) have changed a LOT over the last 50-60 years (or in my case 40 years). Rereading the

books that we loved when we were younger gives us insight into who and what we are today...Foundation and Empire (Foundation Novels)Isaac Asimov; continuing the 12,000 years-in-the-future saga of cigar chompin', blaster-totin', space-faring men and women (yes the women also lovingly smoke cigars... much to the consternation of the men) as they attempt to unravel the mystery of The Mule and The Second Foundation.I cannot imagine anyone reading this series for the first time having any flicker of comprehension as to why it was so popular and how it garnered a lifetime Hugo award... but again.. kids these days have little appreciation for The Beatles and Elvis... so there you are.

- I have similar reactions to all of IA's books... that is simply that they are great fun, an easy and enjoyable read, but not terribly challenging in any respect. I would wholeheartedly recommend any of his various books to friends and family, but I wouldn't expect them to come away really grappling with social issues or anything afterwards. Don't get me wrong- he does go after social issues and examines some things in interesting ways that can be somewhat eye-opening if you're the kind of person who never thinks that way, but it's just not earth-shattering.This sounds horrible... but I don't mean it to. I love this books. I really do. :)
