REVIEW OF EUROPEAN DIPLOMA IN RADIOLOGY EDIR PERSONAL EXPERIENCE

- Deception seems to be one of the most salient themes. As Goleman writes, "We are piloted in part by an ingenious capacity to deceive ourselves, whereby we sink in obliviousness rather than face threatening facts." Blanche buries her devious past with a new start in New Orleans and skirts questions with a swift wit in conversation. She waters down the pains and frustrations of the past with concealed drinking and shrouds her aging face from gentleman callers in a soft light. She delusionally and openly believes that a fictional Texas oil magnate will arrive to whisk her away from yet another prison she finds herself in. Blanche maintains a very interesting relationship with Stanley, the bane of her existence in the French Quarter. While Stanley is ostensibly boorish and

untamed, Blanche poorly masks these same latent characteristics in her own personality with a ladylike charm, frequent bathing, and heavy perfume. Her attacks on Stanley are actually projections, effectively assaults on the qualities she hates most about herself. Her outward disdain for her sister's husband is likely an aggressive reaction to what is better known as jealousy. What's more, this behavior runs in the family (another universal Williams theme). Stella convinces herself that an abusive relationship is fit to raise a child in. And at one point, the sisters recall their mother's refusal to accept her own mortality and her imploration to her young daughters to participate in this shared collusion. In the final scenes of the story, as Stella is giving birth to their son, Stanley finishes what he started, defeating Blanche completely in a territorial act of rape. When Blanche finally does choose to embrace honesty and come clean with Stella about the crime, her sister refuses to believe her and locks her away with the truth in an asylum, in step with what we'd expect from the DuBois family. The play was originally to be named "The Poker Night," and like "The Glass Menagerie," this image is an appropriate symbol to help unify the piece. As Williams writes it, poker, a game of deception, is not just played by the men in this play.

- While the concept of condensing the thoughts of international philosophes for the benefit of students is laudable, the reasoning employed in this book is frustrating and prone to have the reader littering the margin with comments. Here are a few examples: 1) p. 10 "The first viewpoint is well expressed by Martin Wight in an unusually provocative paper..." -- This quote does not tell us if the author only finds few of Wight's papers provocative or few of any papers provocative. 2) p. 61 "On other issues his [Thomas Aquinas's] reasoning is less satisfactory, as when he places community above the individual..." -- One could easily argue that many extremely reasonable people have placed the well being of the community above that of the individual. This is part of the last sentence of the chapter on Aquinas, and Thompson gives no explanation for why this reasoning is "less satisfactory". 3) p. 79 "Much as Plato's critics found that the idea of the philosopher king was antidemocratic and totalitarian, some of Hobbes's critics make that charge. Forgotten by Hobbes's critics was the individual's voluntary relinquishment of certain rights through a compact or social contract." -- This blanket statement about Hobbes's critics is doubtful. Hobbes's critics likely feared that the voluntary relinquishment of rights would again foster the development of non-voluntary, totalitarian regimes similar to what they had seen in times past. 4) p. 8 "If philosophy is defined as an unusually stubborn attempt to think clearly, then a comprehensive philosophical approach to world politics should lead to the rediscovery of our place in history." -- The philosophical mind often determines that there is no beginning or end to time (history). If that is true, then the "rediscovery of our place in history" is impossible. It would be akin to trying to establish a fixed point on a line which has no beginning, no end, and continues to lengthen. An alternative may be "Classic Readings of International Relations" (Phil Williams, et. al.) which provides less commentary and focuses on excerpts actually written by many of the same authors discussed in "Fathers of International Thought."
