Take an authoritative, thorough, and heavily illustrated look at Triumph motorcycles, from beloved classics to popular new models! What do Marlon Brando, James Dean, Steve McQueen, Bob Dylan, and Arthur Fonzerelli all have in common? All of these men define the very essence of cool, and all have owned Triumph motorcycles. Originally formed as a bicycle company in 1885, in 1902 Triumph produced its first motorcycle, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. For the first time ever, The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today collects all of the motorcycles from this iconic brand in a single volume. Written by respected Triumph expert Ian Falloon, all of the major and minor models are covered, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today will also feature important non-production models and non-factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan will want to be without!

American Motorcyclist Causey Enterprises, LLC

This is the definitive story of Triumph, told through 130 years of its magnificent motorcycles. Created with support from Triumph and with a foreword from CEO Nick Bloor, The Art of the Motorcycle is a celebration of Triumph's most beautiful bikes, and an essential companion for any fan. With unprecedented access behind the scenes, the book tells the story of Triumph's motorcycles through the years, from the earliest models and much-loved classics to the most recent bikes. Features include: Entries on each of the greatest Triumph models Stunning photography throughout - including never-before-seen images Detailed technical information Early design sketches First-hand reports from the people who were there Other treasures from the Triumph archives With insightful, thoroughly-researched text, Triumph - The Art of the Motorcycle is the ultimate history of an enduring icon, told through its greatest machines.

Cycle World Magazine Causey Enterprises, LLC

The ultimate reference for Triumph lovers and fans of British motorcycles, The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today collects all of the motorcycles from this iconic brand in a single illustrated volume. In this revised and updated edition, you'll find the all-new Bonneville lineup introduced for the 2016 model year as well as other Triumphs through 2019. Originally formed as a bicycle company in 1885, Triumph produced its first motorcycle in 1902, which was simply a bicycle fitted with a Belgian Minerva engine. From there, the company, in various iterations, went on to build some of the most iconic motorcycles of all time. Written by respected Triumph expert Ian Falloon, this luxurious reference covers all of the major and minor models, with an emphasis on the most exemplary, era-defining motorcycles such as the Thunderbird, Tiger, Trophy, Bonneville, and new machines such as the Speed Triple, Thruxton, and Daytona 675. Detailed technical specifications are offered alongside compelling photography, much of it sourced from Triumph's archives. The Complete Book of Classic and Modern Triumph Motorcycles 1937-Today also features important non-production models and factory racing and speed-record-setting motorcycles that have become integral parts of Triumph's stellar reputation. This is a book no Triumph fan should be without!

Cycle World Magazine Causey Enterprises, LLC

REVIEW OF TRIUMPH SPRINT ST SPRINT RS SERVICE REPAIR

- This book gives an in-depth examination of both ancient and modern societies reviewing how the societies started, developed, and ultimately either succeeded or failed. Knowing what the earlier societies faced and how they dealt with them demonstrates that some problems are universal and do not always have a set response. A very eye-opening part of the narrative is when he speaks of the Norse settlements on the coast of Greenland and how he shows that societies can be motivated by other causes than self-preservation which can lead to the society failing for reasons that it did not need to. I would recommend this book to anyone who wants to look beyond the history books (for ancient societies) or the newspaper headlines (for current societies) for understanding the underlying causes and effects of these societies.

- I understand why the book appeals strongly to the environmental catastrophe-minded, and it covers quite a bit of interesting history in areas which are not often addressed, but overall it is lacking. When I first glanced at the table of contents I wondered why the author was remarkably selective in the collapses covered, but it is apparent afterwards. The societies discussed are what almost every reasonable historian would consider minor players in human history. Intense overpopulation in areas of limited resources is bound to create catastrophic problems- that's a no-brainer. Tracing every problem to environmental depredation is pretty short-sighted and hardly objective. Collapses of much larger and more important civilations could be covered and those failures are rather more complex issues.
