## **REVIEW OF INFOPATH 2010 TRAINING MANUAL CEPHLUTIONS**

- It was ruined between the last fifteen pages. This particular version of the e-book has some severe editing issues, and the

audio book goes spastic around the same time as the faulty organization of the text, leaving reader confused.

- I do not own this book, and am not reviewing it. But there is a quote from the essay "On Living In An Atomic Age" that is going around once again, following the London bombings of July 2005. I am putting it here on Amazon so interested parties Googling to find the source of the quote might have an easier time of it: "If we are . . . going to be destroyed by [a] bomb, let that bomb when it comes find us doing sensible and human things--praying, working, teaching, reading, listening to music, bathing the children, playing tennis, chatting to our friends over a pint and a game of darts--not huddled together like frightened sheep and thinking about bombs."--C.S. Lewis
