R for Everyone Guinness World Records

This new title from Bradt tells the inspiring and emotional story of Ishbel Holmes, also known as 'World Bike Girl', a Scottish-Iranian woman who became a champion racing cyclist in spite of having been abandoned by her family, and who set off on the adventure of a lifetime despite her lack of experience, money or equipment. Ishbel Holmes was determined to cycle the world but her journey took a completely unexpected turn when, despite her initial instincts not to, she rescued a street dog in Turkey. Ishbel was lost and alone when she started on her epic trip, but in Lucy found a companionship never previously known. Between the two there formed a deep bond and their relationship was followed and supported by thousands of readers online, before becoming a media sensation overnight when Ishbel put out a plea for help to transport Lucy to an animal shelter three hundred miles away. This heart-rending tale is about more than just the relationship between a woman and her dog. It is a testimony to the human spirit, overcoming present-day challenges and churning up long-buried and painful memories from Ishbel's earlier life. It is also a tale of adventure, one person's determination to cross an unfamiliar country by bike and the unforgettable scenes that greet her on the Turkey-Syria border and into Syria itself. And it is a loving portrait of Lucy, the street dog that was determined not to let Ishbel go and whose dogged persistence helped to break down the barriers around her heart and in so doing change her life in ways she had never imagined. Ultimately, this is a tale of love and healing, a modern fable that touches the soul and reminds us all of the need to belong.

**An Absolutely Remarkable Thing** Springer Nature

A Social History of Sheffield Boxing combines urban ethnography and anthropology, sociological theory and place and life histories to explore the global phenomenon of boxing. Raising many issues pertinent to the social sciences, such as contestations around state regulation of violence, commerce and broadcasting, pedagogy and elite sport and how sport is delivered and narrated to the masses, the book studies the history of boxing in Sheffield and the sport's impact on the cultural, political and economic development of the city since the 18th century. Interweaving urban anthropology with sports studies and historical research the text expertly examines a variety of published sources, ranging from academic papers to biographies and from newspaper reports to case studies and contemporary interviews. In Volume II, Bell and Armstrong examine the revival of Sheffield

boxing after the decline of the 1950s and 1960s outlined in Volume I. Instigated by two men from outside the city—Brendan Ingle and Herol Graham—this renaissance became known as the 'Ingle style,' which between 1995 and 2014 produced four world champions: Naseem Hamed, Johnny Nelson, Junior Witter and Kell Brook. These successes inspired others and raised Sheffield's profile as a boxing city, which in the 1990s and 2000s produced two more world champions in Paul 'Silky' Jones and Clinton Woods. In this second volume, Bell and Armstrong track the resurgence of boxing to the present day and consider how the game and its players have changed over time.

THE INSTANT #1 NEW YORK TIMES BESTSELLER "Sparkling with mystery, humor and the uncanny, this is a fun read. But beneath its effervescent tone, more complex themes are at play." —San Francisco Chronicle In his wildly entertaining debut novel, Hank Green—cocreator of *Crash Course*, *Vlogbrothers*, and *SciShow*—spins a sweeping, cinematic tale about a young woman who becomes an overnight celebrity before realizing she's part of something bigger, and stranger, than anyone could have possibly imagined. The Carls just appeared. Roaming through New York City at three a.m., twenty-three-year-old April May stumbles across a giant sculpture. Delighted by its appearance and craftsmanship—like a ten-foot-tall Transformer wearing a suit of samurai armor—April and her best friend, Andy, make a video with it, which Andy uploads to YouTube. The next day, April wakes up to a viral video and a new life. News quickly spreads that there are Carls in dozens of cities around the world—from Beijing to Buenos Aires—and April, as their first documentarian, finds herself at the center of an intense international media spotlight. Seizing the opportunity to make her mark on the world, April now has to deal with the consequences her new particular brand of fame has on her relationships, her safety, and her own identity. And all eyes are on April to figure out not just what the Carls are, but what they want from us. Compulsively entertaining and powerfully relevant, *An Absolutely Remarkable Thing* grapples with big themes, including how the social internet is changing fame, rhetoric, and radicalization; how our culture deals with fear and uncertainty; and how vilification and adoration spring for the same dehumanization that follows a life in the public eye. The beginning of an exciting fiction career, *An Absolutely Remarkable Thing* is a bold and insightful novel of now.

## REVIEW OF SUPER RUGBY 2018 DRAW SEASON TO KICK OFF ON FEBRUARY 17

- A tall tale with a comic book quality. Thousands are slaughtered. The evil ones are dramatically destroyed. The good guys cheat death many times, of course, in order to come home and talk and write about it. A happy-ending adventure that the reader will gladly vicariously join. This incredible yarn is similar to "Treasure Island" but in very different interesting African setting.
- Hegel's lectures on History (along with those of his on Law) probably represent the most accessible introduction to the thought of this very important German idealist. Hegel's ideas on history and social organisation and Law had a critical influence on many key 19th and 20th century Philosophers, including Karl Marx, Isaiah Berlin and Karl Popper. While some philosophers followed Hegel, many also vigorously rejected his ideas and thought, and it is only more recently Hegel is undergoing a kind of rehabilitation in Philosophy. This reaction though is understandable since Hegel is a very difficult philosopher to both read and understand. His prose is certainly in my experience the most awfully written and most obscure of any philosopher, and much of the time Hegel seems to be writing nonsense which makes little sense (especially in his more idealist works like *phenomenology of spirit*). It is understandable then why Schopenhauer called him a 'charlatan' who spouted nothing but 'sophistry' which ruined the intellectual background of Germany, and Bertrand Russell said his philosophy stems from a 'set of simple logical mistakes.' Nevertheless Hegel is a great Philosopher, and the fact he is extremely obscure does not invalidate some very original and profound and interesting ideas which are to be found in his philosophy, especially in his notion of the dialectic, of Spirit manifesting itself through history and historical events, of his interesting reaction to Kant, his ideas on Art and the reactions to his philosophy from students like Marx. His idealism also influenced important philosophers like Fichte and Schelling in the 19th century, and in the 20th century idealists such as McTaggart, F.H. Bradley, and J.N. Findlay, who built on his thought and provided valuable new philosophical ways of thinking about the Absolute and in bringing religion and mystical experience back into a better relationship with Philosophy, given much of Philosophy since the time of Hume has savagely attacked religion as meaningless nonsense. In the 21st century, it is probably Hegel's thought on ethics, art, history and

religion which have the most relevance.
