REVIEW OF AP BIOLOGY FRQ ANSWERS

- This is a wonderful and fun book! Even if you don't like any of the patterns, the stitch guide in the front makes it worth it. The biggest issue with this book is the binding. The book falls apart. This is my second copy. I had to keep collecting the pages and putting them in folders as they fell out. Im going to be putting the first copy in a three ring blinder now. Thats the only reason I gave it three stars. If the binding had been better i would have given it five stars.

- This has been my favorite crochet book! The patterns are hip and the author does a fantastic job of breaking things down into easy steps.
