REVIEW OF ENGINEERING MECHANICS DYNAMICS 5TH EDITION BY MERIAM J L KRAIGE L G 2003 PAPERBACK

- This book caused me to really consider the possibilities. The photographs are simply

astonishing. My drinking glass now has a label attached, a personal affirmation. Hey, couldn't hurt! Buy this book and ponder the discoverable.

- I started reading Raymond Chandler after the author of one of my favorite new authors of last year, Richard K. Morgan, was compared left and right to him. The comparison was apt, and Morgan should be flattered, because Chandler is a genius. Farewell, My Lovely is Chandler's

second book, and features his hero, Philip Marlowe, a smart-mouthed, hard-boiled private dick who is straight as an arrow. I had read that The Big Sleep, Chandler's first book, was his best, and that they descended in quality chronologically. But after reading this book, I know that is wrong. This is one of the best stories I've read in a long time. not only is the wonderful noir narrative there, but the mystery is first-rate.
