## REVIEW OF SAUDI ARAMCO ENGINEERING STANDARDS LIST

- Frankl touches upon the most fundamental aspect to some of the psychiatric problems (and non-psychiatric) that face us today: life lacking meaning. his genius and foresight that is seen as he details his experiences and perspective while in the camps is a feat, or rather a level of magnitude, to which we should all aspire. I read the book in 1 1/2 days, it was a truly compelling read. I hope it affects everyone else as positively as it affected me. Happy (or at least "meaningful") reading. -S.
- This book was purchased as a gift and from what the person has told me that it was very good.
