REVIEW OF BECAUSE I AM FURNITURE THALIA CHALTAS

- This is a very good translation of Crowley's book and has a fine hard cover presentation. Fortunately Minotauro Editions has

restarted the publication of sci-fi volumes as it did in the early `50s, allowing Spanish reading public to get in touch with this genre. Crowley proposes a strange universe to develop a new Aesopian world. USA has disintegrated in a bunch of minor Autonomies and City States competing among them in an endless struggle. There is a feeble nominal Federal Government and a new emerging Union for Social Engineering trying to gain political control, this specific feature reminds me of a very similar state structure on PKD's "The World that Jones Made". In some earlier stage, scientists had done some bio-engineering experiments producing some hybrid new species: the Leos grown from the improbable combination of human and lion cells. There are also other strange specimens: a fox-man, a dog with some undetected talents and, of course, lots of human characters, with their own goals and needs. Combining all these elements, Crowley structures a very interesting novel. The Beasts traits, (fox's cunning, lion's braveness and endurance, dog's fidelity and self sacrifice) are potentiated by the mixture with human traits. Humans in their turn had been subject to over stressing situations in a changing background. So the interactions between so different characters are always open to collisions due to their diverging natures and interests. The power shifts from one group to the other. At the same time all of them are approaching to each other, seducing and being seduced, in a continuous dance in a spiral course. There are some reminiscences and resonance from Aesop fables and his wise animals proposing intelligent lessons to humankind. This is a book to be tasted as a rare dish by sophisticated readers. Reviewed by Max Yofre.

• John Grisham's latest, THE LAST JUROR, is his first novel since A TIME TO KILL to be set in Ford County, Mississippi . . . I've never been to either the fictional setting or state, but it sure feels like I know it from reading this latest legal thriller . . . the characters all come alive, in large part because the author is so talented in using dialogue that helps move the pace along at near-breakneck speed. JUROR is about a 23-year old college dropout who assumes ownership of a once bankrupt newspaper . . . when a brutal murder occurs, circulation increases as all the gruesome details are reported . . . when the murderer is released after nine years because in Mississippi in 1970, "life didn't necessarily mean life," all hell breaks loose. I really feel like I got to know Willie Traynor, as well as many of his colorful friends and acquaintances . . . in addition, I liked the book's ending . . . Grisham--after a few disappointing efforts--returns my list of authors whose books I will seek out when they first get published.
