I have a 2005 Suzuki Boulevard C50. When riding on the highway at 65mph the bike just shut off. I was able to restart once i stopped. Also, a week prior to that also on the highway at 65 mph the bike started jerking like it was going to stall on me. Did it only a couple of times. What could be the issue, as this is a fuel injected bike.

- hey, guys, get off your high horse of morality. lower your standard a little bit, don't take it too seriously and too personal. something you didn't like in this book may only had to do with your personal humiliation like dirty laundry you don't want to wash. this book is just a collection, there are lot of repeatedly appeared similar jokes in different form, sometimes tiresome enough to skip. but all in all, we've got to appreciate that someone still had the patience to collect it and made it into a book. life is short, have some junk food once in a while, got nothing to do with life threatening

slip. enjoy while you can. put the bible aside, take this giant book of dirty jokes up, put on your reading glasses and flip thru. you may find some jokes that you like to tell your old wife, then get a scornful helpless smile from her. live in a constant bibilical, conservative, highly moralized environment, sometimes is too

stressful. you can't get anything fun when sift thru the daily junk mails and those heart-stopping monthly statements, or even worse, answering the phone calls from the collecting agencies for your late payments or delinquencies. life is too short, man, eat a six-dollar burger, turn yourself into a couch potato and, enjoy it while you can.
