REVIEW OF MICHIGAN CIVIL SERVICE EXAM 2002 STUDY GUIDE

- The last reviewer is very innacurate in his effort to portray this book as innaccurate. So I thought I would coutner his arguments.Pg56: You're missing the point, he's talking about variations from year to year, not from tree to tree.Pg124: 2003 WAS actually a very deadly avalanche year with many

avalanches all over BC, not just the one accident you mentioned.pg185: You're simply interpreting that he means the exact pole, which he clearly isn't. His affirmation that icy water from the depths comes to the surface near the poles is accurate.So lighten up, and take the book for what it is, a very well written and informative document. It is a very important book that I wish everyone would read, especially the oil and coal industries who are pillaging the planet for short-term profits.

- This form pack has put me and my business on the map of the fastest deal setters in town ,and this all due to the fact that my team does its programming fast, with great reliability and does not have to worry about pesky legal details, because they get all the explanations they need and forms from this book. Great!
