Whether you're looking to broaden your perspectives or carry out research, our uncomplicated and cost-free solution is here to support you every action of the

method.

## **REVIEW OF BANGLA CHOTI FILE**

• Ah, what a book! You know, I think it's actually angered MORE religious than Rushdie's SATANIC VERSES! With a rep like that, you owe it to yourself to give it a read. And I mean READ it-- don't let anyone make up your mind for you. (You see from this page how many folk are willing to do just that!)The most frequent objections I have seen to this book are: 1) it is full of bitter falsehood, and 2) It is embarrassingly UN-scholarly. I believe the folks who say this are banking on your NOT bothering to read it. Disappoint them!As far as these allegations go, they are well refuted by Robert Zins in his booklet FORMIDABLE

TRUTH (available from White Horse Publications.)Dr. Boettner's book is a classic. It is also remarkable how little actual bitterness or mean spiritedness you will find here.One reviewer says to disregard it and read THE CATECHISM OF THE CATHOLIC CHURCH instead. My challenge is that you read BOTH and compare! "...the truth shall make you free."

• This book may have excellent and easy-to-understand contents about Alzheimer's. However, the title is somewhat belittling and insensitive to the patient and to the family. Yes, having worked with Alzheimer patients and families, I would say so. I would NOT recommend this book to them. Perhaps to the general public is okay.....but then, should they not also go to Alzheimer's Association ([www.alz.org](http://www.alz.org)) and their local chapters throughout the country for general information and resources??
