REVIEW OF TOYOTA 2TZ ENGINE

- I long ago classified this book as my favorite book of all time. I know that is probably hyperbole at this point as I have read so many books

since my Du Maurier period in my 30's. But it is a very engaging book. It is one I have re-read several times which is a very rare compliment from me who believes there is so much to read, why spend time re-reading.

- It was not an easy journey and it's not a quick read, but the interviews are great. Makes you wish you could spend more time with the people he meets. If you read the book a while ago, pick it up and read the May, 1999 Afterword. I bet you'll re-read the whole book.
