REVIEW OF KUKA KRC4 PROGRAMMING

- Very good and apparently well researched account of the tragedy of the Whaleship Essex which was stove in and sunk by a whale, a rare event. Begins with a good background of the old whaling industry in New England, particularly Nantucket, and follows with the tragic voyage of the Essex. Detailed description of the ordeal and horrors endured by the 20 men who were in 3

small boats on the open ocean for over 90 days. Good descriptions of the Captain, First Mate, and others, and well illustrated with drawings and photographs. Once started, I found

the book hard to put down.

- The suffering of these men is above comprehension. This is a great read hard to put down. I recommend reading this story
