History Alive! TAN Books

"Between the fall of the Roman Empire and the brief, brilliant cultural phenomenon we call the Renaissance lay the Middle Ages-- fully 1,000 years of artistic, philosophical, political, and religious turmoil and treasures. This course offers an interdisciplinary look at medieval society and culture, with an

emphasis on literature, the arts, and the tumultuous historical forces at work from A.D. 500 through A.D. 1500. Medieval Europe was the world of cathedrals and universities; pilgrimages and saints; the Black Death; the Vikings; the spread of Islam; the Crusades; and the forging of the Greek, Latin, Old Norse, and ancient Germanic and Celtic tongues into the languages we speak today"--Publisher provided.

A History of Places and People Tor Books

When the ancient Greeks looked up into the heavens, they saw not just sun and moon, stars and planets, but a complete, coherent universe, a model of the Good that could serve as a guide to a better life. How this view of the world came to be, and how we lost it (or turned away

from it) on the way to becoming modern, make for a fascinating story, told in a highly accessible manner by Rémi Brague in this wide-ranging cultural history. Before the Greeks, people thought human action was required to maintain the order of the universe and so conducted rituals and sacrifices to renew and restore it. But beginning with the Hellenic Age, the universe came to be seen as existing quite apart from human action and possessing, therefore, a kind of wisdom that humanity did not. Wearing his remarkable erudition lightly, Brague traces the many ways this universal wisdom has been interpreted over the centuries, from the time of ancient Egypt to the modern era. Socratic and Muslim philosophers, Christian theologians and Jewish

Kabbalists all believed that questions about the workings of the world and the meaning of life were closely intertwined and that an understanding of cosmology was crucial to making sense of human ethics. Exploring the fate of this concept in the modern day, Brague shows how modernity stripped the universe of its sacred and philosophical wisdom, transforming it into an ethically indifferent entity that no longer serves as a model for human morality. Encyclopedic and yet intimate, *The Wisdom of the World* offers the best sort of history: broad, learned, and completely compelling. Brague opens a window onto systems of thought radically different from our own.

The perfect St. Patrick's Day gift, and a book in the best tradition of popular history -- the untold story of Ireland's role in maintaining Western culture while the Dark Ages settled on Europe. Every year millions of Americans celebrate St. Patrick's Day, but they may not be aware of how great an influence St. Patrick was on the subsequent history of civilization. Not only did he bring Christianity to Ireland, he instilled a sense of literacy and learning that would create the conditions that allowed Ireland to become "the isle of saints and scholars" -- and thus preserve Western culture while Europe was being overrun by barbarians. In this entertaining and compelling narrative, Thomas Cahill tells

the story of how Europe evolved from the classical age of Rome to the medieval era. Without Ireland, the transition could not have taken place. Not only did Irish monks and scribes maintain the very record of Western civilization -- copying manuscripts of Greek and Latin writers, both pagan and Christian, while libraries and learning on the continent were forever lost -- they brought their uniquely Irish world-view to the task. As Cahill delightfully illustrates, so much of the liveliness we associate with medieval culture has its roots in Ireland. When the seeds of culture were replanted on the European continent, it was from Ireland that they were germinated. In the tradition of Barbara Tuchman's *A Distant Mirror*, *How The Irish Saved Civilization* reconstructs an

era that few know about but which is central to understanding our past and our cultural heritage. But it conveys its knowledge with a winking wit that aptly captures the sensibility of the unsung Irish who relaunched civilization. **BONUS MATERIAL:** This ebook edition includes an excerpt from Thomas Cahill's *Heretics and Heroes*.

The fascinating story of the evolution of the country house in Britain, from its Roman precursors to the present *The Story of the Country House* is an authoritative and vivid account of the British country house, exploring how they have evolved with the changing political and economic landscape. Clive Aslet reveals the captivating stories behind individual houses, their

architects, and occupants, and paints a vivid picture of the wider context in which the country house in Britain flourished and subsequently fell into decline before enjoying a renaissance in the twenty-first century. The genesis, style, and purpose of architectural masterpieces such as Hardwick Hall, Hatfield House, and Chatsworth are explored, alongside the numerous country houses lost to war and economic decline. We also meet a cavalcade of characters, owners with all their dynastic obsessions and diverse sources of wealth, and architects such as Inigo Jones, Sir John Vanbrugh, Robert Adam, Sir John Soane and A.W.N. Pugin, who dazzled or in some cases outraged their contemporaries. *The Story of the Country House* takes a fresh look at this

enduringly popular building type, exploring why it continues to hold such fascination for us today.

The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition A Penguin Classic Dick Davis—“our pre-

eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of Ferdowsi’s masterpiece, adding more than 100 pages of newly translated text. Davis’s elegant combination of prose and verse allows the poetry of the Shahnameh to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the Shahnameh is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the Shahnameh are deeply embedded in

Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning

more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these

course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)

What are these graceful visitors to our skies? We now know that they bring both life and death and teach us about our origins. Comet begins with a breathtaking journey through space astride a comet. Pulitzer Prize-winning astronomer Carl Sagan, author of *Cosmos* and *Contact*, and writer Ann Druyan explore the origin, nature, and future of comets, and the exotic myths and portents attached to them. The authors show how comets have spurred some of the great discoveries in the history of science and raise intriguing

questions about these brilliant visitors from the interstellar dark. Were the fates of the dinosaurs and the origins of humans tied to the wanderings of a comet? Are comets the building blocks from which worlds are formed? Lavishly illustrated with photographs and specially commissioned full-color paintings, *Comet* is an enthralling adventure, indispensable for anyone who has ever gazed up at the heavens and wondered why. The story of the eventful and controversial life of Margery Kempe - wife, mother, businesswoman, pilgrim and visionary - is the earliest surviving autobiography in English. Here Kempe (c.1373-c.1440) recounts in vivid, unembarrassed detail the madness that followed the birth of the first of her fourteen children, the failure of her brewery business, her dramatic call to the spiritual life, her visions and uncontrollable tears, the struggle to convert her husband to a vow of chastity and her pilgrimages to Europe and the

Holy Land. Margery Kempe could not read or write, and dictated her remarkable story late in life. It remains an extraordinary record of human faith and a portrait of a medieval woman of unforgettable character and courage.

VOLUME II - the Medieval World Text Book Bloomsbury Publishing

Named a Best Book of 2020 by The Telegraph, The Times, and BBC History Magazine An illuminating guide to the scientific and technological achievements of the Middle Ages through the life of a crusading astronomer-monk. "Falk's bubbling curiosity and strong sense of storytelling always swept me along. By the end, The Light Ages didn't just broaden my conception of science; even as I scrolled

away on my Kindle, it felt like I was sitting alongside Westwyk at St. Albans abbey, leafing through dusty manuscripts by candlelight." —Alex Orlando, *Discover Soaring Gothic cathedrals, violent crusades, the Black Death: these are the dramatic forces that shaped the medieval era. But the so-called Dark Ages also gave us the first universities, eyeglasses, and mechanical clocks. As medieval thinkers sought to understand the world around them, from the passing of the seasons to the stars in the sky, they came to develop a vibrant scientific culture. In The Light Ages, Cambridge science historian Seb Falk takes us on a tour of medieval science through the eyes of one fourteenth-century monk, John of Westwyk. Born in a rural manor, educated in England's*

grandest monastery, and then exiled to a clifftop priory, Westwyk was an intrepid crusader, inventor, and astrologer. From multiplying Roman numerals to navigating by the stars, curing disease, and telling time with an ancient astrolabe, we learn emerging science alongside Westwyk and travel with him through the length and breadth of England and beyond its shores. On our way, we encounter a remarkable cast of characters: the clock-building English abbot with leprosy, the French craftsman-turned-spy, and the Persian polymath who founded the world's most advanced observatory. The Light Ages offers a gripping story of the struggles and successes of an ordinary man in a precarious world and conjures a vivid picture of medieval life as we have never

seen it before. An enlightening history that argues that these times weren't so dark after all, *The Light Ages* shows how medieval ideas continue to color how we see the world today.

The Light Ages: The Surprising Story of Medieval Science Yale University Press

An extraordinary and beautifully illustrated exploration of the medieval world through twelve manuscripts, from one of the world's leading experts. Winner of The Wolfson History Prize and The Duff Cooper Prize. A San Francisco Chronicle Holiday Book Gift Guide Pick! Meetings with Remarkable Manuscripts is a captivating examination of twelve illuminated manuscripts from the medieval period. Noted authority Christopher de Hamel invites the reader

into intimate conversations with these texts to explore what they tell us about nearly a thousand years of medieval history - and about the modern world, too. In so doing, de Hamel introduces us to kings, queens, saints, scribes, artists, librarians, thieves, dealers, and collectors. He traces the elaborate journeys that these exceptionally precious artifacts have made through time and shows us how they have been copied, how they have been embroiled in politics, how they have been regarded as objects of supreme beauty and as symbols of national identity, and who has owned them or lusted after them (and how we can tell). From the earliest book in medieval England to the incomparable Book of Kells to the oldest manuscript of the Canterbury Tales,

these encounters tell a narrative of intellectual culture and art over the course of a millennium. Two of the manuscripts visited are now in libraries of North America, the Morgan Library in New York and the Getty Museum in Los Angeles. Part travel book, part detective story, part conversation with the reader, Meetings with Remarkable Manuscripts allows us to experience some of the greatest works of art in our culture to give us a different perspective on history and on how we come by knowledge.

- A great devotion guide at an unreal price this is a wonderful start and end to any believers day. We have had the paperback version for years it is not convenient to carry around. The Kindle version solves that problem.
- I was very pleased with this book. Even

though I'm in the preconception stage, I read the book cover to cover, and I found it very useful and interesting. Even though the preconception and fertility sections are relatively brief, they are very concise. The book also answered many of my questions about the later stages in a very clear way. I highly recommend this book.
