## REVIEW OF LAWS STATE OF MARYLAND

- I highly recommend this book to anyone who cross stitches. I got it from the library and loved it so much that I purchased it. It has pages and pages of really cute patterns. This would be a perfect

book for someone who designs their own samplers or for someone who enjoys stitching smaller designs, even on bookmarks. This one is a keeper!

- One of the nicest and most lovable things that people do is to take care of dogs. Everyone knows how devoted dogs are to their owners (for which the word "guardians" is being used by those who do not like to think of such noble and friendly animals as property) and how devoted the humans are to their dogs. But like anything else that humans do, there are people that mess things up, and in some cases, mess things up horrifyingly. There are dogs who are mistreated and abandoned, and there are not enough shelters to take care of all the strays. Countless dogs end up officially killed because culling them is the sad best solution to a problem dogs didn't cause and humans did. There are people who are making a difference, and in *The Man Who Talks to Dogs: The Story of America's Wild Street Dogs and Their Unlikely Savior* (Thomas Dunne Books), Melinda Roth has given a touching portrait of an unlikely, flawed, and genuinely gifted dog-lover who is getting help for helpless dogs. Randy Grim is the founder of Stray Rescue in St. Louis, a position he describes as being captain of a punctured life raft. He is a bundle of phobias. "I have to take one Xanax for driving, one and a half for shopping malls, two for walking through an airport, and three if I have to eat in an airport." But he can do things like drive, even over feared bridges, without anxiety if he is

on duty rescuing dogs. There is a good deal of unpleasant but essential reporting here, a good deal about what happens to dogs bred for the "sport" of dogfighting, and dogs from puppy mills. Grim drives out into the wilds of the city to try to befriend the dogs and eventually corral them into his care. He meets some cast-off humans as well, and helps them when he can; he knows he should feel more sorry for people, but he knows there are other agencies doing that: "Nobody is worrying about these dogs out here who don't know how to hunt or how to fend for themselves or how to survive." The dogs go to Grim's basement for basic care and beginning lessons in associating with humans. A friendly lawyer helped get Grim's efforts certified as a non-profit organization, and some news stories helped get the word out so that he now has a group of dedicated foster parents to nurture terrified, injured, and crazy dogs fresh off the streets. The dogs are finally adopted out, and plenty of the adoptions work out well for all concerned. Grim has become a national figure in the dog rescue world. There is a hilarious account of an Animal Planet crew sent to film his adventures in catching strays ("Look! I'm being filmed and driving across a bridge, and I'm not freaking out."). When the story aired, there was more recognition, which meant more people called him to pick up dogs, but also more donations and more volunteers. "I'm not perfect," Grim says, "but I know that if it wasn't for the dogs, I would have ended up a lost soul with a bleak life." This is a lovely story of redemption, of lost dogs and a lost man who made a difference helping each other.
