 The Ultimate Guide to Buying The Best Camera: How to ...
 Camera lenses with angles of view between 30° and 10° are referred to as standard or short telephoto and medium telephoto lenses. On a full-frame camera, these lenses range from 85mm to 135mm, or about 50mm to 85mm on an APS-C format camera. Just as a 35mm lens is "slightly wider" than a normal lens, an 85mm lens is slightly tighter than a ...
 Canon DSLR Lens Buying Guide | B&H Explora
 The field of view is largely dependent on the focal length of the camera's lens, and many bullet and dome cameras will list lens focal length instead of degrees in their specs. A common fixed lens focal length is 2.8mm, which is equivalent to a 90° horizontal field of view. Some cameras let you zoom in for a narrower field of view.

REVIEW OF CAMERA LENS BUYERS GUIDE

- I am a 13 yr old who reads a ton. my room is a library. This book was exceptionally good. I think everyone should read it. It is very creative. I think it has a good plot and is exciting. This book is to me, better than the Harry Potter series. It is not gory, but it has some fighting which makes it exciting. It also keeps you on your toes. It is a little funny at times. IT IS A VERY INTERESTING BOOK AND I THINK YOU SHOULD READ IT.

- The Transall Saga by Gary Paulsen has to be one of the best books I've ever read. The Transall Saga is an adventure book. No matter what kinds of books you like to read, you should try this one because once you start to read it YOU CAN'T PUT IT DOWN! You will like it so much you won't be able to tell someone about it in 5 minutes or less. If you like you read this book is calling your name!
