REVIEW OF HOLT PHYSICS CHAPTER 9 ANSWERS

- All I can say is... Yikes! This series is pretty twisted, in a "We all believe in the same God, but you should die anyway." sort of way. I really like this series, it asks a lot of those uncomfortable questions, and it really wants to make you think, and say ewwwwwwww. This is definatly not for the kiddies, unless you are training a young david koresh, but is a satisfying read. As you move into the later books the story really starts to solidify, and you actually get to know the otherside of those heartless (not really) nut job preists. Overall a very cool read, and I highly recomend it!

- Helpful enough for a beginner. Not only including step-by-step

learning methods about reading and playing music, but also providing some background information such as how to chose a piano.
