Bear in mind, reading reviews can help you make informed choices regarding what to read following and can reveal you to brand-new writers and genres you may not have considered previously.

REVIEW OF BLOOD AND SAND 10TH ANNIVERSARY EDITION

- A B Sea: A Loose-Footed Lexicon by writer and experienced navigator Jack Lagan is a straightforward, "user friendly" lexicon of common nautical terms used by 21st century seafarers. Ranging from "abaft" to "yardarm", A B Sea is an authoritative reference and a definitive resource which is written in highly accessible terms for non-specialist general readers of all skill and experience levels as they embark upon the adventurous world of sailing the seas (as well as boating the rivers and lakes of the world)!
- Living in Poland and Yugoslavia (where

this book is mandatory reading in gymnasiums, certain type of high schools) during the Iron Curtain period and during the fall of the B. Wall, I disagree that the theory in the book is correct. However, there were persons who could be associated with the certain personality types in the book, but to generalise in this way as Milos did is quite incorrect. For that I give the book two stars. I don't know how the other reviewers could compare reality with what they read in the book; but I guess to see it with your own eyes is the best way to test the things. Well, some say - he got the Nobel Prize so the book must be good picture of reality. To those I say, Henry Kissinger got the Nobel Prize for peace (!?) and it is well documented what kind of criminal person he is.
