### ANSWER KEY

• If you don't like King's adaptation of "The Kingdom", then that's fine. Each to his own. But I am absolutely fed up with this "King stole it" crap. First off, go to King's own website. It clearly cites "The Kingdom" as the original source for the ABC series. The Time magazine article (Feb. 24th, 2004) also credits von Trier. If ABC only wants to credit von Trier in the opening or closing credits of the episodes, that is their right. Most likely they are not including von Trier's name in the TV spots that are currently advertising the series because MOST AMERICANS HAVE

NEVER HEARD OF VON TRIER! They have, however, heard of Stephen King and King's fans are exactly the demographic that this show is going to be targeting. A handful of von Trier fans (most of which are probably going to stop watching early on claiming the original is better) are not going to keep this show's ratings up enough to remain on the air. So do your homework before you start making baseless claims. Overall, this book is very well written. The character of Sally Druse is very likeable. Also, be on the lookout for several literary jokes made throughout, which, refreshingly, the author didn't feel the need to explain to the audience. You either get them, and they

enhance your reading of the book, or they are over your head. Nice to see an author with faith in his/her audience. I read it in one sitting yesterday in preparation for the premiere tonight. Personally, I felt the book was worth the money even though it ends abruptly and waits for the show to

pick up the story.

- Dune is one of the greatest works of science fiction ever written. It combines universal themes with artful and expansive story telling to bring to life the world of Arakkis. This novel can be put up in the ranks with Lord of the Rings and Stranger In A Strange Land.
