LAST IDEAS

Overall, our company believe that Physics HL IB Revision Guide Schcl is worth a read, despite some minor defects. The distinct narration design, relatable personalities, and plot twists make it a beneficial addition to your shelf. So, if you're seeking a captivating read, Physics HL IB Revision Guide Schcl is certainly worth taking into consideration.

REVIEW OF PHYSICS HL IB REVISION GUIDE SCHCL

- First of all, 20% of the words in this book seem to be devoted to sarcasm- it was funny at first but then became tiresome. The book follows the pattern of telling you what's wrong, who's guilty, and how much money that person sucked from the American taxpayer. Personally I'm more interested in the details of the loopholes. How do offshore tax havens work? How do corporate lobbyists operate in Washington? These details aren't available in Pigs at the Trough.

- If you've been reading the news lately, you surely have noticed the string of corporate scandals. What you may not have heard is that much of what the CEO's did -although certainly not all- was actually legal! That's the shameful part of the story.Ms. Huffington uncovers the corporate/political collusion to rig the game at the direct expense of the public at large and shows the extent to which the problems reach.It's a fascinating read! My only criticism is that she doesn't put any blame on the public for lazily sitting on the sidelines thereby allowing this all to occur.... to our own detriment.
