REVIEW OF S60 24

• Well, it's not Harry Potter, but it comes across nicely for a 17 yr old. It's about this boy Eragon and he finds a dragon egg and becomes a dragon rider. I wouldn't say it's a ripoff, because most fantasies are rip offs anyway. I think that anyone who likes this book should also read Dragons: Lexicon Triumvirate.

• So what that the author is young! To many people are discriminating (hope I spelled it right) this book because the author is young. This book is awesome! So what that it blends Lord of the Rings with other fantasy books. The point of reading a book is that you enjoy it....Right? You can't take points away from this book because of it's non-originality. This book is fun to read and I couldn't put it down. I found myself reading it for hours at a time and it felt like minutes. It's that good!Only one small, minor, complaint. You can tell the author matured because his writing style gets better as the book goes along. At the beginning he described things too much and I thought this was going to be a boring book. But I kept reading and my reward came for the \$18 I spent on this book.Overall-one of the best books (if not the best book) I have read. And I have read a lot of books for a kid at the age of 14.
