#### REVIEW OF CHAPTER TEST B CHEMISTRY ANSWERS

- Good short stories from thr great Updike. Each one unqiely different.
- This book, Fahrenheit 451, is about a fireman in the future, an age of mechanical hounds and virtual reality families that argue about nothing, who instead of putting out fires, starts them instead. He burns books and the houses in which they are found. He is very happy with his job even though all of the citizens are frightened of him, until he meets a girl who is "17 and crazy". His walks with her and her strange ideas and interesting views make him question his job. He starts to steal and read books, which change his life forever.I really enjoyed reading this book. I absolutely love reading (anything) but especially love books about what our future could be like. This book, 1984, and Brave New World, among others, are books that imagine and predict an awful future (Imagine a world without books!) which is even more interesting because it kind of gives us a warning.The author, Ray Bradbury, has a really interesting writing style. One characteristic writing device he utilizes is description. He shows the reader exactly what is going on by giving lots of detail, for example "climbed slowly back into bed, arranged the covers over his knees and across his chest, half sitting". I think he does this to both create tension and to prolong and emphasize a moment. At this point in the book, the reader is wondering if Montag, the main character, will be safe, but they have to wait. Another unique characteristic of Bradbury's writing is how he uses lots of metaphors and similes ("face as bright as snow") which add more detail, making the scene easier to imagine. A third characteristic is that he writes about really scary happenings in pretty, flowery, flowing language which makes it seem less frightening and more normal. This helps the reader really get into Montag's mind because they aren't so scared off.I would recommend this book to anyone (over age 12) because it is a book you have to have read to live in today's world and understand what people are talking about and referencing. Also, this book is just a really good read that can be enjoyed on many levels, as a suspenseful story, or as a warning about our future. There are also themes of love and camaraderie. Everyone can find a character to identify with.
