REVIEW OF PAPER 1 UP CPMT 2008

- The more I read from Ueland, the more I became convinced that I had found a book that would be yellowed and dog-eared on my bedside table thirty years from now. Each observation that she makes feels so common-sensical, friendly and right at its core that it seems as though someone ought to have pointed it all out to you before. This is not the typical self-conscious guide to life or writing; it's a conversation and an exercise in encouragement.

- Steve Turner gives the background story behind every Beatles song on all their officially released albums up to Abbey Road. Other books make the same claim, but this one's the best! To me, the most fascinating entries are about John's autobiographical songs, such as 'In My Life' and 'Strawberry Fields Forever.'The story behind 'A Day In the Life' is riveting and is partly based on a personal tragedy for Paul.Find out what John's inspiration was for 'Tomorrow Never Knows.' Does Dr.

Robert really exist? 'She's Leaving Home' is based on a true story Paul had read about in a newspaper. Which was the first Beatles song not to be about love?
