REVIEW OF ABE INTRODUCTION TO ACCOUNTING PAST PAPER 2012

- This book was a real mystery. It tells of murder and a supernatural hound behind it. It has alot of twist and turns on the perspective of the case. Just as you think you might have figure the case out you hit another dead end and try to start from scratch. This was one of of Holmes hard cases to figure out. I recommend it if you love Sherlock Holmes and mysteries.

- Interesting from the first page. There's already a mystery to be solved right when you open the book, with a mysterious cane left in Watson and Sherlock's office. Doyle keeps each page filled with suspense and thrills. Even as I read, I could hear the low, mournful sound of the hound that Stapleton keeps locked up baying across the moor. The characters are amazing and funny. Sherlock Holmes keeps me giggling with all of his oddities and eccentricities. Watson is amusing with his normal assumptions next to Sherlock. The mystery is intriguing and darker and deeper than it first appears. The book can actually be rather creepy and suspenseful, unlike the other mystery novels where they're solving the typical robbery, or something like that. The only thing that I didn't like as much compared to other authors I've read was that his sense of description wasn't as good. I had to rely more on my imagination to see the moors as he described it rather than what it really looked like. Yet in spite of that, the novel was comedy, mystery, and a pinch of horror all rolled into one delicious enchilada
