Traditional Europe had high levels of violence and of alcohol consumption, both higher than they are in modern Western

societies, where studies demonstrate a link between violence and alcohol. A. Lynn Martin uses an anthropological approach to examine drinking, drinking establishments, violence, and disorder, and compares the wine-producing south with the beer-drinking north and Catholic France and Italy with Protestant England, and explores whether alcohol consumption can also explain the violence and disorder of traditional Europe. Both Catholic and Protestant moralists believed in the link, and they condemned

drunkenness and drinking establishments for causing violence and disorder. They did not advocate complete abstinence, however, for alcoholic beverages had an important role in most people's diets. Less appreciated by the moralists was alcohol's function as the ubiquitous social lubricant and the increasing importance of alehouses and taverns as centers of popular recreation. The study utilizes both quantitative and qualitative evidence from a wide variety of sources to question the beliefs of the moralists and the assumptions of modern scholars about the role of alcohol and drinking establishments in causing violence and disorder. It ends by

analyzing the often-conflicting regulations of local, regional, and national governments that attempted to ensure that their citizens had a reliable supply of good drink at a reasonable cost but also to control who drank what, where, when, and how. No other comparable book examines the relationship of alcohol to violence and disorder during this period.

REVIEW OF TRADITIONAL KENTISH RECIPES

- 100 years of Solitude

is a confusing book to read It is enjoyable nonetheless. It is hard to keep track of what each character is doing, because there are so many characters with the same name. Gabriel Garcia Marquez paints a vivid picture of a fictional setting called Macondo where the people speak Spanish. The founder of Macondo is Jose Arcadio Buendia. He is an adventurous person but he gets crazy and impulsive with anything new. These traits seem to pass on to all of his descendants with the same name. The people of Macondo endure a civil war and a widespread plague where no one can sleep. They also have to adjust to living with the white man. I liked about how each

character is changed by the events happening around them. Aureliano Buendia is a great example of this. He is a happy, intelligent, compassionate person at the beginning of the novel. However after experiencing defeat in a prolonged civil war, he loses his capacity to appreciate life and his loved ones. Each woman in this novel has her own individual quirk that makes them unique. Ursula is the matriarch of the Buendia family who holds the family together despite being blind. Pilar Ternera is the fortune teller who predicts the future using cards. Rebecca is a reclusive character who eats dirt from the ground when she is depressed. 100 years of Solitude is an ok

book but it's just a little hard to follow because of all the many characters.

- I first read "One Hundred Years of Solitude" not long after it was first published in English, almost 40 years ago. It was a wonderful, and magically, if you will, introduction to Latin American literature. Subsequently, I've read several other works by Marquez, notably, Love in the Time of Cholera (Vintage International) some 20 years later, but none have quite cast the spell of my first "love," this one, so I figured a re-read was in order. The "magic" of magic realism has lost none of its charm. The story involves six generations of one family, established by Jose Arcadio Buendia

and Ursula Iguaran, who also helped found the town of Macondo, in the lowlands of Columbia, though the country is never specifically identified. The in-breeding (and also out-breeding) in this one family is simply astonishing. I can't remember if the original edition had a genealogical chart at the beginning, but this one does, and it provides an invaluable reference in keeping the philanderings, and the subsequent progeny, straight, particularly since numerous individuals over the generations have the same name. What is the "Scarlet Letter" that is prophesized for a family with such a high degree of consanguinity? That a child will be born with

a pig's tail. Marquez dazzles the reader with the intensity of his writing; it's as though he had a 1600 page book in him, but is given a 400 page limit. It is the furious sketching of a street artist, making every line count in a portrait. The strengths, follies, and interactions of the men and women are depicted in memorable events. And there seems to be a realistic balance and development of his characters. Marquez is also the master of segue, from one event to the other, and from one generation to another, with his characters moving from swaddling clothes, on to adulthood, and then into their decrepitude. From my first reading, I had

remembered Rebeca, with her "shameful" addiction to eating dirt. First time around, I chalked it up to Marquez's "magical realism," since no one really ate dirt. Several years later I learned that it is a wide-spread medical problem, often driven by a mineral deficiency that the person is trying to remediate. The author also describes the disease of insomnia which was spread to Macondo, with an accompanying plague of forgetfulness. Magical realism, or the forgetfulness of the "now" generation that has lost the stories of the past? Establishing the time period comes slowly. Marquez mentions Sir Frances Drake, but he is in the unspecified past. It is only when a family

portrait is taken, as a daguerreotype photo, that one realizes it must be in the 1840's-50's, with six generations to go. There are a multitude of themes: since this IS Latin America, Marquez has the obligatory gringos and their banana plantations (alas, all too true); there is endless, senseless war, with the two sides eventually unable to state what they are fighting for, except, of course, the war itself; there are the women who drive men crazy with their beauty, and there is the spitefulness of women to each other (alas, again, the "sisterhood"); there is economic development, and a worker's revolt, and the use of other members of the same

class, but in uniform, who repress it; there is the role of the Catholic Church in Latin America, and even a family member who would be Pope and there are unflinching portrayals of the aging process, alas, to the third power. On the re-read, I noticed a portion of the novel that was much further developed in *Innocent Eréndira: and Other Stories* (Perennial Classics). Also nestled in the book was an important reference: "Taken among them were Jose Arcadio Segundo and Lorenzo Gavilan, a colonel in the Mexican revolution, exiled in Macondo, who said that he had been witness to the heroism of his comrade Artemio Cruz." Checking Marquez bio, he has been a long-time friend

of Carlos Fuentes, slipped this reference in 100 years, which is an omen for me, since I was considering re-reading Fuentes marvelous *The Death of Artemio Cruz: A Novel* (FSG Classics). And in terms of omens, redux even, do future travel plans include meeting another character in the book, the Queen of Madagascar? I recently had dinner with a woman who had been Ambassador to one of the Latin American countries. Spanish is her native language, and she still reads some of the Latin American writers in Spanish to "keep her language skills up." As for "100 years," she had read it four times, each time in English. It's a record I am unlikely to repeat, but this novel, which

honors the Nobel Prize with its name, could use a third read, if I am granted enough time. It ages well, sans decrepitude, and provided much more meaning the second time around. 6-stars.
