Join our neighborhood today and start your journey right into the world of literature with easy downloads of all your favorite books like **Smartcuts Shane Snow Pdf!**

### REVIEW OF SMARTCUTS SHANE SNOW PDF

- I was a bit hesitant to read this one - the cover doesn't speak to me. BUT, boy, am I glad I did! The Giver gave far more than I could ever have expected. The characters were so real, I could reach out and touch them. And the world is hauntingly terrifying in its sameness. That is exactly what would happen to us if we gave up our free agency to choose - even though agency is a double-edged sword that can inflict so much pain on us. I really like the concept of The Giver as a custodian of memory. This book is a brilliant read - sadly a bit short, I could have done with a few more chapters - for anyone wanting to explore how the world would be without choice. I loved it.

- This book was very facinating. It had me where i couldn't put it down. The book was a little depressing towards the end of the book and I think it could have ended better. It ended in a way that makes you want to keep on reading. I was intriged by the world that the character lived in and curious on how their life compared to ours. The book also had some mystery in it that i liked. For example, when the apple changed and when he was about to find out what release was. It also had a lot of exciting parts, like when the main character recieved his first memory. It also had some sadness to balance the good. For instance, When you read about the Giver's daughter killing herself. The book had some really neat stuff in it, like the fact that everyone except the Giver and eventually Jonas couldn't see colors. The world that Jonas lived in also had a orginized way of life ,but in my opinion it was too perfect. If you are ever woundering if you should buy this book or not, I think you should.
