REVIEW OF ETHIOPIAN STUDENT PHYSICS TEXT GRADE 11

- I started out liking this book. It was different, it had a story, and the writing is good, engaging, well paced. But now I'm not so sure. Should I even finish it? The writer has the heroine reading a Jane Austen book. I've seen this done before and it aggravates me to no end. In her time, when her books were being published, Jane Austen's name was NOT on the book. Not until several years after it was published did Jane's name appear on *Pride and Prejudice*. Please authors, do a simple Google search before you put anything so easily checkable in print, for God sakes! It makes everything else in the book HIGHLY questionable.

- One of the best books written on the subject this title was a revelation for me and my company and it helped me with every step I had to take in developing a successful business. The book is a gold mine of information and advice that is given by specialists and has lots of information on how to contact important people or companies. A must have book for anyone looking to enter the business and for novices to. My best buy yet, I recommend it to all, don't hold back and buy it
