REVIEW OF MADER BIOLOGY AP EDITION DEVISEORE

- I tried really hard to like this book. The first couple of chapters were really promising, but then the author suddenly lost track of where she was going. Stilted broken part-way descriptive sentences. No serious romance going on. I really didn't care if they ended up together. I suggest Karen Marie Moning for really great time travel romance, or for the serious time travel enthusiast - Diana Gabaldon's Outlander. Both authors have never written a dud. This was definitely a dud, no offense intended to the author of course. It just didn't happen.

- I came across this story in an anthology when I was teaching elementary school. It is beautifully written and full of wise gems. I would highly recommend it for family or classroom use.
