REVIEW OF PROJECT MANAGEMENT ACHIEVING COMPETITIVE ADVANTAGE 2ND EDITION

- I know I read this book. I read it all. I tried to learn about the art of novel-writing from it.I have just read the

Amazon reviews posted about this novel. A couple are good. They tell me that Kundera writes here about Cervantes, Sterne, Balzac, Dostoevsky and Kafka. They tell me the book has a seven- part structure as his novels do. They tell me that Kundera contrasts the art of the novelist with the thought of the philosopher- and that for him the art of the novelist is in portraying ambiguity and complexity. They tell me that this particular book is one of his best.Now I have read other Kundera works. I know his work plays much with chance and infidelity and philosophical reflections by the characters on whether their disloyalty or love is bringing them to the incredible lightness of being which some seem bound to living in. They tell me too that the reflections touch about politics ,

Czech freedom, what it means to write under tyranny and what it means to live in the West. But the truth is I having read this work on the novel by Kundera remember not one single sentence or thought from it. This the impatient Amazon reader perhaps thinks says more about my own empty head than it does about the value of Kundera's work. But I now wonder if something in Kundera's world and way of seeing things, his kind of liberation, his kind of emphasis on the incidental and very secular do not repel this religious reader seeking to feel that all, even in the novel, should have some kind of deep and permanent connection with the One Source of all true meaning. It may be I have forgotten Kundera because his themes and understanding are ones I

simply do not wish to know.

- John Keel is the prototype for the serious investigator of the paranormal. He combines just the right combination of skepticism and open-mindedness, along with a genuine sense of the absurdity yet reality of the situation he's dealing with. This book deals with one of the most famous series of incidents in the annals of Fortean or the paranormal, the "Mothman" incident or incidents which took place in a rural area of West Virginia in late 1966. Keel describes the seemingly unbelievable sequence of events with wry detachment. At the same time he conveys a sense of dread and fear in the face of incidents for which there is no rational explanation. Keel is probably the closest we have to the most famous and

probably best chronicler of the strange and bizarre, Charles Fort. More than anything else, this book reminds us of what Shakespeare said, "There are more things in heaven and earth than are dreamt of in your philosophy."
