REVIEW OF CONCEPTS OF BRAND LOYALTY SHODHGANGA

- I was looking for a book that was a little more enlightened and a little less materialistic. This author clearly likes to shop (I am not a shopper), so it was hard to relate. Most of the ideas I have read before. I think the title is a little misleading. When I think about meaning, I think of higher ideals -- not just having more time to read a book in a quiet corner of my house. I don't know...I think if you have a strong sense of what brings meaning, you might find this book a bit superficial. Writing is good and there are good quotes too.

- Its full of pitures and not what I thought it would of been. There are better books then this one I would pass it up if I had known.
