The unique narration design, relatable characters, and plot spins make it a beneficial enhancement to your shelf. So, if you're seeking a fascinating read, English File Workbook Without Key Upper Intermediate Level is absolutely worth considering.

REVIEW OF ENGLISH FILE WORKBOOK WITHOUT KEY UPPER INTERMEDIATE LEVEL

- Those of you who saw Eragon the movie (and there are precious few who did) may not know that the movie was based on a book of the same name. First in the "Inheritance" series, Eragon the book shows that Hollywood can actually make a movie better than the book. The book is 500 pages of plodding non-excitement. Really, about 450 pages is devoted from going one place to the next ala Dungeons and Dragons, sans anything exciting happening. The dialogue is poorly written. As script editor, I am always telling my writers to make their dialogue sound natural. After all, people tend to write more formally than they talk. This is a lesson that Christopher Paolini did not take the time to learn when he set out to write this. Both the narrative and the dialogue do get better when they finally reach the home of the Vardens, about 400 and some odd pages in. But it take a tremendous effort to get there, both on the part of the characters and the readers. Unfortunately, by this time, whenever he stops to describe something, you're too burned out by the reaaaaalllllyyyyyy loooooonnnnggggg expositions that took place during the first 4/5th of the book and now you can't take any more. This book got a lot of good reviews. For the life of me, I can't understand why. On the other hand, it also got a lot of bad reviews. I'm in that camp. He hit on an interesting idea, but it was poorly executed. I am, however, going to read the next book in the series, Eldest. I hope it's going to be better.

- I read the first book and am currently reading the second one. Let me just say, wow, it's a very good book. The story is very well written and the universe is unique. Kudos to Christopher Paolini for writing an amazing book.
