Thanks for selecting our system for your PDF downloads. We look forward to supplying you with superb solution and diverse options for several years to find.

## REVIEW OF OM 5

• I have a casual interest in Siouxsie and the Banshees and recently decided to add their 'best of' to my CD collection. On a whim I decided to get this biography to find out the stories behind some excellent songs. I must say how impressed I was with what I learned about the band and the personalities within. I can sum it all up by saying it's a story of chance, hard work, an over-whelming desire to be different, drinking, a seemingly never ending succession of guitar players, more drinking, some drugs, persistence and artistic integrity. With more drinking! Starting from a point of not even knowing how to play their instruments right through to crafting some song arrangements which are quite exquisite, Siouxsie and the crew really made their mark. This book delivers a blunt and to-the-point account of how they managed it. A very interesting read for anyone whose single buying years started in the late 70s and who has an interest in the late punk/new wave/pop genre.

• I became enthralled by Issac Asimov through a collection of his short stories. In just a few pages he presented and explored a brain-boggling idea. But in this longer work and two others in the Foundation series (Foundation and Empire and Prelude to Foundation) I admit considerable disappointment. There are some good ideas but they're lost in a sea of shallow characters and needless ramblings. I won't give up on the author because when he hits he really hits. But I'm through with the Foundation series
