Essays on Colonial Georgia Univ of South Carolina Press

This third edition of Historical Dictionary of the American Revolution contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 1,000 cross-referenced entries on the politics, battles,

weaponry, and major personalities of the war.

General Lachlan McIntosh, 1727-1806: a Biography UNC Press Books

In addition Cashin offers a detailed portrait of the often overlooked southern frontier on the eve of the Revolutionary War, revealing it to have been a coherent entity united by an uneasy coexistence of Native Americans and British colonials.

Essays on Colonial Georgia University of Georgia Press

Nonfiction narrative account of Continental General Lachlan McIntosh, his brothers and sister, and his wife and children during the American Revolution. While he served in Georgia, Valley Forge,

Fort Pitt (Pittsburgh) and South Carolina, his wife and younger children became refugees and wandered the south seeking shelter.

The Rise and Fall of the Creek Nation in the Early Republic Oxford University Press

Between 1735 and 1748 hundreds of young men and their families emigrated from the Scottish Highlands to the Georgia coast to settle and protect the new British colony. These men were recruited by the trustees of the colony and military governor James Oglethorpe, who wanted settlers who were accustomed to hardship, militant in nature, and willing to become frontier farmer-soldiers. In this respect, the

Highlanders fit the bill perfectly through training and tradition. Recruiting and settling the Scottish Highlanders as the first line of defense on the southern frontier in Georgia was an important decision on the part of the trustees and crucial for the survival of the colony, but this portion of Georgia's history has been sadly neglected until now. By focusing on the Scots themselves, Anthony W. Parker explains what factors motivated the Highlanders to leave their native glens of Scotland for the pine barrens of Georgia and attempts to account for the reasons their cultural distinctiveness and "old world" experience aptly prepared them to play a vital role in the

survival of Georgia in this early and precarious moment in its history.

Republics Ancient and Modern, Volume III
Cambridge University Press

This book restores Aaron Burr to his place as a central figure in the founding of the American Republic. Abolitionist, proto-feminist, friend to such Indian leaders as Joseph Brant, Burr was personally acquainted with a wider range of Americans, and of the American continent, than any other Founder except George Washington. He contested for power with Hamilton and then with Jefferson on a continental scale. The book does not sentimentalize any of its three protagonists, neither does it

derogate their extraordinary qualities. They were all great men, all flawed, and all three failed to achieve their full aspirations. But their struggles make for an epic tale. Written from the perspective of a historian and administrator who, over nearly fifty years in public life, has served six presidents, this book penetrates into the personal qualities of its three central figures. In telling the tale of their shifting power relationships and their antipathies, it reassesses their policies and the consequences of their successes and failures. Fresh information about the careers of Hamilton and Burr is derived from newly-discovered sources,

and a supporting cast of secondary figures emerges to give depth and irony to the principal narrative. This is a book for people who know how political life is lived, and who refuse to be confined within preconceptions and prejudices until they have weighed all the evidence, to reach their own conclusions both as to events and character. This is a controversial book, but not a confrontational one, for it is written with sympathy for men of high aspirations, who were disappointed in much, but who succeeded, in all three cases, to a degree not hitherto fully understood.

Lachlan McIntosh papers in the University of Georgia libraries McFarland

The Rise and Decline of

the Redneck Riviera traces the development of the Florida-Alabama coast as a tourist destination from the late 1920s and early 1930s, when it was sparsely populated with "small fishing villages," through to the tragic and devastating BP/Deepwater Horizon oil spill of 2010. Harvey H. Jackson III focuses on the stretch of coast from Mobile Bay and Gulf Shores, Alabama, east to Panama City, Florida--an area known as the "Redneck Riviera." Jackson explores the rise of this area as a vacation destination for the lower South's middle- and working-class families following World War II, the building boom of the 1950s and 1960s, and the emergence of the

Spring Break "season." From the late sixties through 1979, severe hurricanes destroyed many small motels, cafes, bars, and early cottages that gave the small beach towns their essential character. A second building boom ensued in the 1980s dominated by high-rise condominiums and large resort hotels. Jackson traces the tensions surrounding the gentrification of the late 1980s and 1990s and the collapse of the housing market in 2008. While his major focus is on the social, cultural, and economic development, he also documents the environmental and financial impacts of natural disasters and the politics of beach access and dune and sea turtle protection.

The Rise and Decline of the Redneck Riviera is the culmination of sixteen years of research drawn from local newspapers, interviews, documentaries, community histories, and several scholarly studies that have addressed parts of this region's history. From his 1950s-built family vacation cottage in Seagrove Beach, Florida, and on frequent trips to the Alabama coast, Jackson witnessed the changes that have come to the area and has recorded them in a personal, in-depth look at the history and culture of the coast. ACCESSING LACHLAN MCINTOSH AND THE POLITICS OF REVOLUTIONAR Y GEORGIA IN PDF STYLE

James Habersham
University of Georgia
Press

George R. Lamplugh, a historian of Georgia and the South, explores some of his home state's most fascinating historical events, beginning with the American Revolution and continuing through the 1850s, in this well-researched collection of essays. He covers political factionalism during the American Revolution; the development of political parties in

Georgia (which was different from the process in other states); and the impact of the Yazoo Land Fraud on Georgia's political development. Some of the most fascinating essays focus on the maneuverings of individual politicians, such as William Few, who was determined to exert local influence after the American Revolution by having the Richmond County courthouse and jail, and hence the county polling place, constructed in the settlement of Brownsborough rather than in Augusta. More complex issues get equal treatment, such as how after the War of 1812, political parties in Georgia began to slowly adopt policies that were popular in

other states—even though that meant hurting Creeks, Cherokees, and slaves. While Georgia didn't always live up to democratic ideals, its political history teaches us a lot about our past and possible future.

*The American
Revolutionary
Conquest of the
Iroquois* iUniverse

Lachlan McIntosh (1728-1806) was a prominent Georgia planter, patriarch of his Highland Scots clan in America, and the ranking general from Georgia in the Continental army. Often, however, he is known simply as the man who, in a duel, mortally wounded Button Gwinnett, one of Georgia's signers of the Declaration of Independence. This

biography fleshes out McIntosh considerably and, just as important, uses his life as a springboard for discussing the rapidly shifting political, social, and economic forces at work during a crucial period of Georgia's history.

This Cursed War
Rowman & Littlefield

The American Revolution was a struggle not only for independence, but for the lands of Native Americans. The jewel in this conflict was the upstate New York domain of the Iroquois Six Nations, where fertile river valleys were a magnet for farmers weary of New England's stubborn soil. While at first intentionally neutral, the Iroquois were soon forced to choose sides between either rebel or

British forces. Seeds of Empire recreates the events surrounding General John Sullivan's scorched-earth campaign against the Six Nations of the American Indians of New York and the Eastern territories in 1779, following the surrender of General John Burgoyne's entire British army at the Battle of Saratoga. Abandoned by both the rebels and the British at the end of the revolution and devastated by the ravages of war, the Iroquois found themselves powerless to resist the post-Revolutionary takeover and peopling of their heartland by the new American nation.

Loyalty, Politics, and Commerce in Colonial Georgia
University of Georgia Press

At the outbreak of the American Revolution in 1775, the colonies faced the daunting task of creating the first American army, and its requisite leadership, capable of combating a global superpower whose standing army and general ship were among the finest in the world. Built largely from state and local militias, the colonial army performed surprisingly well and produced a number of fine generals. Some were experienced before the war, like George Washington of the Virginia Militia and the British-born Horatio Gates, while others were as green as the soldiers they led. This book presents basic biographical information about America's first generals

in the Revolutionary War. Included are all generals of the Continental Army, along with those commissioned in the colonies' militias. Drawn from primary sources, including death and census records, records of the Continental Congress, and contemporary writings, each biographical sketch provides date and place of birth, prewar education and occupation, wartime service, date and place of death, and place of burial. Portraits of each general are included where available, and appendices display important statistics, including comparative ages; occupations; officers lost by death, resignation, murder or changing loyalty; and states or countries of

origin.

Dictionary CreateSpace

In Of One Mind and Of
One Government Kevin
Kokomoor examines

the formation of Creek politics and nationalism from the 1770s through the Red Stick War, when the aftermath of the American Revolution and the beginnings of American expansionism precipitated a crisis in Creek country. The state of Georgia insisted that the Creeks sign three treaties to cede tribal lands. The Creeks objected vigorously, igniting a series of border conflicts that escalated throughout the late eighteenth century and hardened partisan lines between pro-American, pro-Spanish, and pro-British Creeks and their leaders. Creek politics shifted several times through historical contingencies, self-interests, changing

leadership, and debate about how to best preserve sovereignty, a process that generated national sentiment within the nascent and imperfect Creek Nation. Based on original archival research and a revisionist interpretation, Kokomoor explores how the state of Georgia's increasingly belligerent and often fraudulent land acquisitions forced the Creeks into framing a centralized government, appointing heads of state, and assuming the political and administrative functions of a nation-state. Prior interpretations have viewed the Creeks as a loose confederation of towns, but the formation of the Creek

Nation brought predictability, stability, and reduced military violence in its domain during the era.

Lachlan McIntosh of Georgia and the Tribulations of His Family During the American Revolution

Greenwood Publishing Group

First published in 1992 and now available in paperback in three volumes, Paul Rahe's ambitious and provocative book bridges the gap between political theory, comparative history and government, and constitutional prudence. Rahe challenges prevailing interpretations of ancient Greek republicanism, early modern political thought, and the founding of the American republic. '[An] extraordinary book. . . . It is a great achievement and will stay as a landmark.'--

The Spectator (London) 'This is the first, comprehensive study of republicanism, ancient and modern, written for our time.'-- Harvey Mansfield, Harvard University 'A stunning feat of scholarship, presented with uncommon grace and ease--the sort of big, important book that comes along a few times in a generation. In an age of narrow specialists, it ranges through the centuries from classical Greece to the new American Republic, unfolding a coherent new interpretation of the rise of modern republicanism. . . . World-class, and sure to have a quite extraordinary impact.'-- Lance Banning, University of Kentucky Volume I: The Ancien Regime in Classical

Greece Where social scientists and many ancient historians tend to follow Max Weber or Karl Marx in asserting the centrality of status or class, Rahe's depiction of the illiberal, martial republics of classical Hellas vindicates Aristotle's insistence on the determinative influence of the political regime and brings back to life a world in which virtue is pursued as an end, politics is given primacy, and socioeconomic concerns are subordinated to grand political ambition. Volume II: New Modes and Orders in Early Modern Political Thought Where many intellectual historians discern a revival of the classical spirit in the political speculation of

the age stretching from Machiavelli to Adam Smith, Rahe brings to light a self-conscious repudiation of the theory and practice of ancient self-government and an inclination to restrict the scope of politics, to place greater reliance on institutions than on virtuous restraint, and to give free rein to the human's capacities as a tool-making animal. Volume III: Inventions of Prudence: Constituting the American Regime Where students of the American founding are inclined to dispute whether the Revolution was liberal, republican, or merely confused, Rahe demonstrates that the American regime embodies an uneasy, fragile, and carefully worked-out compromise between

the enlightened despotism espoused by Thomas Hobbes and the classical republicanism defended by Pericles and Demosthenes.

Lachlan McIntosh Papers documents Georgia's history during the early Revolutionary War period through the experiences of General Lachlan McIntosh, a prominent Scottish American political and military leader. These papers provide a behind-the-scenes glimpse into political decisions and military movements throughout the first two years of the war. This collection illuminates McIntosh's instrumental role in the events of the early

Revolutionary War period through his correspondence, from reports to new commander in chief George Washington to various letters with other military and political leaders of the time.

The Georgians
University of Georgia
Press

In this fresh study Brian Schoen views the Deep South and its cotton industry from a global perspective, revisiting old assumptions and providing new insights into the region, the political history of the United States, and the causes of the Civil War. Schoen takes a unique and broad approach. Rather than seeing the Deep South and its planters as isolated from larger intellectual, economic, and political

developments, he places the region firmly within them. In doing so, he demonstrates that the region's prominence within the modern world—and not its opposition to it—indelibly shaped Southern history. The place of “King Cotton” in the sectional thinking and budding nationalism of the Lower South seems obvious enough, but Schoen reexamines the ever-shifting landscape of international trade from the 1780s through the eve of the Civil War. He argues that the Southern cotton trade was essential to the European economy, seemingly worth any price for Europeans to protect and maintain, and something to defend aggressively in the halls of Congress.

This powerful association gave the Deep South the confidence to ultimately secede from the Union. By integrating the history of the region with global events, Schoen reveals how white farmers, planters, and merchants created a "Cotton South," preserved its profitability for many years, and ensured its dominance in the international raw cotton markets. The story he tells reveals the opportunities and costs of cotton production for the Lower South and the United States.

One Historian's Excursions into the History of His Adopted State Lachlan McIntosh and the Politics of Revolutionary Georgia Presents profiles and

writings of prominent Antifederalists, including Samuel Adams, Mercy Otis Warren, and James Monroe.

Schedule downloads also use curated listings and suggestions, making it much easier to explore new authors and genres. With individualized algorithms and user-generated web content, we can check out countless titles and find our next fantastic read within minutes.

REVIEW OF LACHLAN MCINTOSH AND THE POLITICS OF REVOLUTIONAR Y GEORGIA

- Chekhov at is best. This perennial work, more actual than ever, tells the story of a community trapped in a "melancholy loop" that hinders their access to the current realities, the efforts of a lucid entrepreneur to extricate his fellows from the bewilderment and the hint at a new generation that wont be sentimental about it all.

- I absolutly loved this book. Although Hercule Poirot doesn't come in untill closer to the end of the book, this is in my oppinion one of the best Agatha Cristie's

and it will keep you guessing to the last page.
