## REVIEW OF PRINTABLE PAPER JOB APPLICATIONS

- Yeah, they make you read this stuff in high school in a country where most kids find it challenging to read the back of a box of

Cap'n Crunch. And because it's forced reading, the novel itself becomes as ossified as one of those dismembered appendages found in Eastern European reliquaries. But if you break the glass and give it a sincere read, you'll discover it's one of the greatest novels ever to come out of America, whether it's the economy of style, the simple power of the language, or its heart-breaking finality. It's not just that Lenny bites the big one, it's that George and all the other guys, they die too. And suffer more.

- This book titled *Of mice and men* is not only exciting but captivating as well. The author is a genius in the way he brings about the story of two very different men. The story of George and Lennie. George is a small but tough man who has an intense friendship with Lennie, a big but slow man. The context of this book is excellent although at the beginning of the book some people may say that it seems very boring, or that it has too many facts as in facts that are not needed. But that's only some people's opinion I believe that the beginning of the book is actually very important. It contains a lot of information that if not known you will not be able understand how George and Lennie end up together, and what was that caused them to end up looking for another job. Another brilliant thing that the author does is that he uses literary devices. The most important literary device that he uses is foreshadowing. In the book there is a incident in which one of the characters from the book named Candy has a dog that has been with him almost all his life and naturally like all animals age this dog became old and ill. The dog became so ill that two of the other characters believed that the best thing to do with the dog was to put him out of his misery by killing him. Candy could not believe what was said but after thinking about it he finally agreed that this would be the best thing. After all was said and done and one of the characters shot the dog in the back of the head Candy still believed that this was a good idea but he also believed that it would of been better if he would have done it himself, because after it was his dog. This incident foreshadows a major part of the book. This book is as good as a cold glass of water on a hot day.
