#### REVIEW OF MATH 1332 EXAM REVIEW HOUSTON COMMUNITY COLLEGE

- The contents of this book should be focused on the functions and wiz-bang attributes of Painter -- you'd think. Instead, we are made to sit through the endless harangue of Rhoda Grossman (a name Dickens would have approved of!). Sherry London's opinions aren't as blatant, but when have you ever had to endure a bashing to find out how to use a product? Painter is an incredible product. Thank goodness I already know this or I might feel embarrassed about my choice, based on the commentary in this book. The book is a total waste of money. It gets one star only because zero isn't allowed.

- This book is the intersection of the families represented in These Old Shades and Devil's Cub(Avon), and Regency Buck (Audley). Makes for a compelling read regarding Waterloo and an excellent period romance.
