REVIEW OF BY PAUL CHANCE LEARNING AND BEHAVIOR 7TH EDITION

- Interesting Texas stories told with a twang that rings true. Bigfoot was pure macho. He came to Texas to kill the man who killed a family member of his, and ended up killing many men who were trying their dang-dist to kill him.

• This is one of the best stories available about Waterloo and its aftermath and it is from the wife of one of the officers in the battle. It is the true story of Madalene DeLancey's Week at Waterloo and I am forever indebted to David Miller who found this incredibly hard to find book and added footnotes and narrative detail to what was a very thin story. Madalene was encouraged to write this story much later - and so it is done from memory rather than diaries and letters, but the detail is extraordinary. It was shown to Charles Dickens who wept over it. Her writing is very moving. It lacks deliberate pathos and yet it is so moving. She had married only a few months prior to battle of Waterloo and her husband had been called to serve at the last minute, they arrived in Belgium just days before the battle began and her husband was immediately swept into the organisation. The army was called up on the 15th and marched to Ligny and Quatrebras where the first battles took place. Back in the town no one knew what was happening, the dithering, the panic, the rumours, the deserters galloping through town are all revealed in her narrative. The most gut-wrenching part is when she finds out her husband has been injured - she hears numerous stories, rumours and half-confirmed details until she finally tracks him down, injured near the battlefield. She then must nurse him. I find myself crying even as I write this review. The story had such an enormous impact. Miller has done a fantastic job of providing detail to throw

light on it, without detracting from its power. One of the best books I have read
