Thanks for choosing our platform for your PDF downloads. We eagerly anticipate providing you with superb service and varied choices for years to come.

REVIEW OF SUZUKI V160 ENGINE MANUAL

- First of all I'd like to congratulate Mr. Paolini on publishing a book at the age of 19. That is an incredible feat, which

would be more remarkable if the ideas portrayed in the story hadn't already been used. Sure the captivating story of a young boy who is lost in the world and is just trying to figure out his place is interesting, but the interest tends to fade about the one-thousandth time you read it. The other flaw that I found in the book was the familiar characters from J.R.R. Tolkein's Lord of the Rings Trilogy- The elf with mysterious powers-the dwarves that tunnel underground-The monstrous creation of a seemingly unbeatable army and the familiarity of names such as, Arya and Arwen, Eragon and Aragorn, Urgals and Orcs. I also observed a dash of Harry Potter magic between the pages. I hold a love for Fantasy novels, but just because it is catagorized as a fantasy doesn't mean it has to include elves dwarves, magic, and dragons- I think the tires on that wagon are running thin (the extreme length of the story didn't help either). I look for a fantasy novel that invents new ideas and new creatures for the mind to explore, that it why I rated this book as a TWO. I also like a novel that can keep my attention for the entirety which Eragon also lacked to do. So I would only reccomend this book to someone who really enjoys the same old thing, all you other adventurers look for your entertainment elsewhere.

- What a wonderful story! It was gripping from the moment I opened it with Eragon's adventures starting immediately and the neverending mysteries that kept popping in the storyline. I loved to be able to refer to the map when a new city or river name would be mentioned. C. Paolini has a gift and merits recognition. I will certainly be on the look-out for future books by this talented author.
