Remember, reviewing testimonials can aid you make notified decisions regarding what to check out following and can subject you to brand-new authors and genres you could not have actually taken into consideration previously.

## **REVIEW OF AUDI ALT B6 ENGINE VUBLIS**

- As an avid reader of Christine Feehan, I was pretty excited when "Scarletti Curse" was published. Unfortunately, the novel did not live up to expectations.

Unlike Feehan's earlier novels, these characters were not well-developed, and the plot was relatively shallow. There were flashes of Feehan's characteristic imagination, but over all it was a disappointing read.

- Another great book from Christine

Feehan. I have read all of her dark series books and love them. This book was also great and not disappointed at all. Can't wait until she writes another book about the brother. And of course I am patiently waiting for some more dark series books!!!
