## **REVIEW OF IRON FLAME THE EMPYREAN 2**

- This All-In-One book has cartoonish pictures and explains basic computer techie stuff. I did extremely well on both exams. I do have a couple years of hands on experience, but I have a habit of buying books and not reading them. However, this book I read cover-to-cover. It may be a bit of overkill in terms of theory for the test. However, I'm a better tech because of doing the exercises. Especially, the ones in the lab manual. For daily reference, I use Upgrading and Repairing PCs.

- Acabo de concluir con este libro, la

verdad es que me parecio muy interesante por diferentes razones:- Esta lleno de ilustraciones de todo tipo, el autor realmente hizo un buen esfuerzo al respecto, es elogiabile.- Su contenido tecnico es de muy buena calidad, cubre los temas relacionados a la certificacion y a la vida diaria con detalle.- Los temas de la certificacion son cubiertos adecuadamente y cada capitulo posee un extra donde el autor incluye informacion que considera importante en la actividad tecnica, elogiabile pues no solamente se preocupa en la aprobacion del test sino tambien en brindar consejos de utilidad.- Esta lleno de humor, reiras bastante mientras estudias.El unico problema que he hallado en este libro es un par de pequenas contradicciones en cuanto a procesadores. En dos diferentes partes del libro, el autor menciona diferentes parametros para el mismo procesador. Lo descubriras facilmente.Este libro vale la pena.Saludos.
