REVIEW OF NEC TOPAZ PHONE

- These are the volumes that got me started in physics several years ago and surprisingly they retain their charm even today when I am reading those passages for the n-th time. Like a great, majestic symphony, a timeless masterpiece.

- This is an excellent book for ALL of us AMC fans: I'm pretty much a novice and it really gave me a good background and tidbits. It helped me learn the history and about characters who were gone before I started watching. It really helped put pieces of the puzzle together. My sister is a veteran and she was kept going "I remember that!" or "No way! Even I didn't know that!!!" And, it has great pictures. I recommend it for those of you who starting watching in the 1970's, and for AMC fans who were born in the 1970's.
