Whether you're seeking to increase your horizons or carry out study, our straightforward and totally free solution is below to support you every step of the method.

REVIEW OF A PRIMER FOR SPATIAL ECONOMETRICS WITH APPLICATIONS IN R AUTHOR GIUSEPPE ARBIA PUBLISHED ON JUNE 2014

- Carb Conscious Vegetarian is full of fabulous recipes. You won't miss those high-carb foods when you start cooking from Robin Robertson's new cookbook. I have made several of the recipes and they are all delish! The Tempeh-Walnut Salad with Lime and Cilantro is filling and flavorful and makes a lovely lunch or dinner. The Black Bean and Sesame-Stuffed Portobello Mushrooms are really unique and fun. The Fennel and Artichoke Gratin with Three-Herb White Bean Pesto is great to serve company, it's so beautiful, and so easy to make. There are also lots of great stir-fry's, one of my personal favorite ways to cook my meals. And Robin really knows her sauces. Just that chapter alone is full of great recipes. My favorite is the Rich Man's Pesto, no wait, it's the Spicy Peanut Sauce, no wait, it's the Charmoula Sauce, I just can't make up my mind! Carb Conscious Vegetarian proves that you can eat healthy low-carb vegetarian meals, without sacrificing any flavor. In fact these recipes are so flavorful, you will want to keep cooking from this cookbook even after you lose all that weight! It is a lifestyle cookbook, one you can use every day, for many years to come.

- Islamic Mysticism: A Secular Perspective by Ibn Al-Rawandi (Prometheus Books) Any believer needs to fairly read some debunking views of one's beliefs. First it is always important to know other points of view, even if they do not persuade or even tend to subvert the truth of the positions one holds as true and life-saving. This book offers a critique of the Sufi path of transformation by a former seeker who feels there is serious deception and self-deception on the spiritual path and it is better to be rational and consistent in one's views than to seek fantastical delusions. Now such a position is unlikely to appeal to the mystic but if one wants to mature in one's mysticism one should give such nay-sayers a careful hearing, concede their good points and carefully critique the limitations of their point of view. Otherwise perhaps such rationalists are correct and such pursuits are bunk.
