REVIEW OF IAS QUESTION PAPER 2013

- Very Stupid. Once you enslave your mind to a blind, fantasy-based, utopian distortion of capitalist society, which has nothing to do with the actual functioning of that system on any level, at anytime whatsoever (and the top beneficiaries wouldn't have it any other way - no matter what this economic-libertarian garbage espouse), this is what comes out of your pencil. Read this book, turn off the real world, and turn on to a reactionary and libertarian-utopian rehash of greed, plunder, pillage and plutocracy WORSHIP touted as "common sense."

- Upon finding the dead, unidentified body of a woman in Central Park, Kay Scarpetta immediately recognizes the gruesome work of Temple Gault. Temple Gault has been murdering people for many years. He hasn't struck for a while, and everyone, including Kay Scarpetta, dreads the horrid day when he does. Kay Scarpetta is the chief medical examiner of Virginia and consulting forensic pathologist for the FBI. When they find this unidentified body, they know immediately that it is a Gault killing.....for only he murders and then puts the victim in a sitting position. This time Kay and her team are determined to find and kill Gault, no matter what the cost. But this time is different, Gault seems to be chasing Kay and her computer expert niece Lucy. Lucy, however, tries to beat him at his own game. She tries to trap him on the computer long enough so that they can find out where Gault is located. From Potter's Field, by, Patricia Cornwell, starts out pretty slow, but soon reaches the action part and takes off from there. It is a very well written, chilling and suspenseful book that will keep you on the edge of your seat. I really enjoyed this book not only because it was well written, but because it was a mystery. If you like mysteries and semi-horrifying books, I suggest that you read this book.
