REVIEW OF BIOCHEMISTRY QUESTIONS ANSWERS

- Matilda Oh I can't believe how good this book is! My book is Matilda written by:Roahl Dahl was a terrific book.This book is about a little girl whose parents and brother were wicked. Everyday her mom would leave to play bingo,her dad would go to work, and brother would go to school. When Matilda got older she went to school and had a very gratifying teacher Miss Honey. One

day Matilda's parents decided to move. If you want to find out what happens read this book to find out. I found this book funny and sad, and I think you will too.

- Allende's use of magical realism in her book,Eva Luna,is highly redolent of the style of other Latin American writers of the same genre e.g Gabriel Garcia Marquez.However, unlike them,she gives her own unique touch to it,thereby creating something fresh and seemingly new.I enjoyed reading most of the book but felt the end was a bit rushed.That Eva should end up with Rolf Carle was not exactly prefigured.I somehow missed the subtle innuendos and other hidden messages one would expect would lead to both of them coming together.However, Allende's evocation of imagery is stunning and her characters are fully formed and easily recognisable-Rogelio,the Turk,the Turk's wife who kills herself physically after an emotional demise, when her young lover departs.They are all people we see everyday , interact with and talk to.Infact, they are all of us, in a sense.
