REVIEW OF COMPUTER CARES LAPTOP REPAIR WORKBOOK THE 300 CASES OF CLASSIC NOTEBOOK COMPUTERS TROUBLESHOOTING AND REPAIR

- I'm not sure if I agree with everything in this book but it is so full of interest I'll give it five stars anyway. The subject of how societies Choose to fail or Succeed is one we need to look at pretty searchingly today, with "failed states" littering the third world and deepening crises in much of Europe, and the author, in the tradition of his earlier books, has done a thorough and thought-provoking job.

- I was really impressed by Jarad Diamond's "Collapse" until I read S. M. Newman (2012, 2013) 'Demography, Territory and Law: The Rules of Animal and Human Populations'. Newman is an evolutionary sociologist. The book examines the whole idea of collapse (including Tainter's) and comes up with a new population theory, which it tests on Rapanui. It shows that the population build up there almost certainly could not have happened and that

the fall of Easter Island must have occurred with European contact. As well as Rapanui, which is not the primary focus, 'Demography Territory and Law: The Rules ...' looks at the amazing history of long term survival of Pacific Islands, including Rapanui (3000 years before the 'collapse'); New Guinea and Australia, 40,000 to 60,000. The author does not dispute the danger of collapse for 21st century societies, particularly due to oil depletion and overpopulation, however Newman does dispute the idea that every modern system is incapable of resisting growth and consumerism. According to Newman, it is the English-speaking industrial societies and their colonial offspring that are out of control. The Roman or Napoleonic system of continental Europe is able to resist population growth and to control resource consumption. It is not hooked on domestic population and economic growth. Unfortunately the English and the continental Europeans don't communicate on this and their citizens usually just assume that they have similar systems. Reading Newman's book makes you wonder how Jarad Diamond could not not have known these facts.
