## REVIEW OF CATEGORY 2 INTEGRATED PEST MANAGEMENT

- I had read THE WHITE MOUNTAINS and was searching for the rest of the Tripod Trilogy. What I found astounded and amazed me. This book was better than the last one! Will Parker and some of his comrades start off in a daring adventure to find out more about the Tripods that rule the Earth. What he finds is some exciting information, but he must find out how to escape the CITY OF GOLD AND LEAD. Gold, because that is what everything is made of, but lead because the gravity is so high in the Master's city that every bone and every muscle in Will's body is dragged down. If you love sci-fi books, this is a diffinent must read. Add it to you collection! The price is worth it! You will read it again, and again. In fact, I gotta go. I am going to go start it again!

- This is the very first true GRAPHIC NOVEL I have ever gotten in my whole life. I received this truly manificent book for my 15th birthday and I really relished in the varying styles of stories and artwork featuring Garfield's adventures in each of his nine lives - all quite masterful and color-splashed. Very witty and humorous as well! But I must warn you, this book has some real TEETH despite the very fact it's all about our very own fat huggable old orange meatball of Garfield himself that we've known and loved for over 20 years. VERY SHARP TEETH. In fact, a couple of stories are pretty scary and there are some mild vulgarity especially in the Viking part as well as...oh, yes!...some bad words. But right after my very first initial shock, Garfield's wild and colorful Viking life turned out to be my most favorite! So - beware, this will be NOTHING like you have ever seen before and you'll NEVER look at Garfield the same way ever again!
