### **REVIEW OF CAHIER DIGITAL D TOX ISABELLE FONTAINE VIDNO**

- I read this book many years ago but lost it over the course of many moves...I'm looking for a copy! It is most interesting, especially if you went to parochial school and were subjected to the propoganda about the Catholic hierarchy. If you were taught by nuns, you'll know this story of Sister Pascalina to be true.
- The book is very good, it provides a big picture of all the aspects of Enterprise .NET application architecture design and development. At the end of this book, it says: " To download the complete test application, please visit [www.apress.com](http://www.apress.com)", I realized that I might never be able to download the code. And when I went to [apress.com](http://apress.com), it just proved what I thought was not wrong: I just couldn't download the sample test project code at all: "404 Error. The requested page is not available."I seriously doubt they have a sample project to download as they said.
