REVIEW OF ADVANCED ENGINEERING MATHEMATICS KREYSZIG 8TH EDITION PDF DOWNLOAD

- This is an excellent book and good value for the price paid. It is well illustrated, and gives the context for much of the content. I recommend this product.

- Tolkien's deceptively simple story of the well to do hobbit named Bilbo Baggins who has adventure thrust upon him is a land mark book in the fantasy genre. Just about Every fantasy novel written since owes a debt in one form or another to Tolkien. I think part of the reason why Tolkien's work resonates strongly with so many people lies in Tolkien's reoccurring theme of the ordinary person thrust into extraordinary circumstances. Bilbo, like all of the Hobbits in Tolkien's Ring Trilogy, is at heart a simple fellow who shows great courage in the face of terrifying odds. Tolkien, a Medievalist and professor of Linguistics at Oxford University, took his vast knowledge of language and ancient myths and used them to create a world unlike anything we've ever seen before. Frank Herbert's Dune trilogy is the only series I can think of which has come close. The Hobbit has it all. Vast armies, an underdog hero, dragons, wizards, lost treasure, giant spiders, and magic rings. The Hobbit is my absolute all time favorite story. Preston McClear, MalibuBooks.com
